

BOYCA

ELECTRONIC MUSIC PRESS KIT 2026

SHORT BIO

BOYCA is a hard-hitting Techno naturalist. The Swiss-born, Berlin-based DJ and producer translates the liberating hypnotism of the dancefloor into relentless, physical Techno with industrial tension and raw emotional charge. His sound merges pounding low-end, complex groove structures, and immersive sound design, shaping a functional yet sensual club experience that is both mechanical and deeply human.

High-energy, hypnotic, and physical: BOYCA's DJ sets oscillate between industrial tension and ecstatic release, built for dark rooms, queer raves and late-morning basements. Since 2025 he holds a residency at GEGEN in Berlin.
